

specifyme.com.au

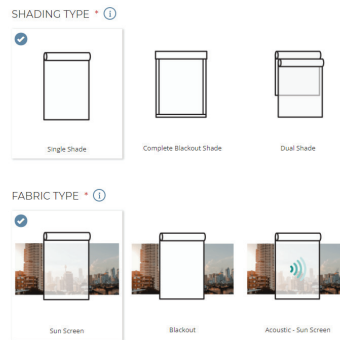

SpecifyMe is a free and easy to use shading specification selection tool. Follow a set of questions to select hardware/operating systems and fabrics to meet your project requirements. Once complete, your shading specification will be emailed automatically to you in a finishes schedule format.

Scan the QR code or visit specifyme.com.au to start using SpecifyMe.

1 Start the Selection Process

Start making selections based on your shading requirements.

- SHADING TYPE
- FABRIC TYPE
- BACKING TYPE
- FABRIC OPENNESS
- FABRIC SELECTION
- COLOUR SELECTION
- BLIND CONTROL
- MOTORIZED CONTROL

Information Buttons

Use the information buttons throughout the selection process for more detailed explanations and technical information.

2 Finalise your Specification

Click **Specify** to complete your specification and to fill out your details.

Another window treatment can be added by clicking

Add Window Treatment

This feature enables multiple window treatments to be added to the same finishes schedule for a single project.

Fill out your details and click **Send My Specification**

SPECIFICATION DETAILS **Add Window Treatment**
